34 ¹ The row's [MED] in combination with the [MED] found in this column is considered a valid dual maintenance medication combination.

35 ² Any combination of [MEDs] with a YES in this column is considered a valid conditioning medication. Conditioning medications are medications a patient receives prior to an HSCT.

Those flagged with 'yes' as used for other cancers were mainly used off-label in the early days
3-5yr OS pre 2014 so patients (and Tx) may be less relevant for current needs
Start the observation window for NDMM from Jan 2016
