Tab 40, 41 & 41a, 41b

For dataset MMA [MED], MED_ABBR will have an identical value for all rows equal to [MED] (e.g., BORT).

Patients with biosimilars (e.g. & Daratumumab Hyaluronidase) are categorized as the same medication.

A patient is allowed to have duplicate DATE_SERVICE for [MED] if a patient has both a pharmacy and a medical claim or claim-line on the same DATE_SERVICE.
